**ACTION:** Before the Town of Fogo Island considers assuming ownership of non Town owned roads, the following must be considered:

1. A minimum of two (2) homes shall be on the designated road.

2. The road shall have a turnaround or alternate exit.

3. The minimum width for the road top shall be 12 foot.

4. The current condition of the road shall have an improved driving surface clear of any objects that will impede drivers or Town equipment.

5. The road must become the property of the Town of Fogo Island.

If a road becomes the property of the Town, the Town will not be responsible for any damage occurring within 6 meters from the side of that road.

The Town of Fogo Island reserves the right to make any adjustments to this policy during implementation.  
Resolution Carried. In favour 8. Against 0.
- Councillors again discussed plowing Collins Road, it was noted that Public Works stated that this road should not be plowed due to possible damage it could cause to Town equipment.
- Councillors said to plow the road with the backhoe first, to create a surface for the plow truck.
- Public Works will visit the road to see how much upgrading it requires.

Now almost 3 years later we received a bill from DMG and are expected to pay 1/3 of the cost.

**Councillors Present:**

- Deputy Mayor Wayne Collins
- Councillor Edward Commden
- Councillor Leonard McGrath
- Councillor Edmund Walbourne
- Councillor Maureen Lynch
- Councillor Lloyd Bixby
- Councillor Bernadette Dwyer
- Councillor Samuel Rowe

**Staff:**
- Susan Cull, Chief Administrative Officer

1. **Call to order:**
   Mayor Shea welcomed everyone and called the meeting to order at 10:05 AM.

2. **Upcoming Ministerial meetings in St. John’s, February 2nd**
   - Agenda items for the meeting with Minister of Health and Community Services, Dr. John Haggie:
     - The doctor shortage was discussed, and recruitment efforts on behalf of Central Health
     - Doctor housing was identified as a major deterrent to physicians living here, and Central Health has committed to providing new housing near the hospital. Council would also like to know the process for obtaining land and building the homes (will this go to an RFP?)
     - Missed appointments: at a meeting in the fall of 2015, Central Health committed to providing a telephone contact whereby residents could call and re-schedule appointments should the ferry not be operating. To date, we have not received a number. Councillor Commden and the CAO did identify that in their discussions with Central Health this is being worked on.
     - Ultrasound appointments: Council would like to see the ultrasound machine being utilized by off-island patients. The hospital should commit to scheduling off-island patients in the mornings, so that they can arrive and return on the same day.
     - Dialysis machine: the dialysis unit is not currently being utilized by anyone on the Island. Is there something that can be done so that residents on the Island who need dialysis can utilize this machine?
     - Emergency crossings on the ferry: can the Air Ambulance be utilized, rather than cause a disruption to the ferry schedule?
     - Long Term Care: is there more space available for long term care patients?
   - Agenda items discussed for the meeting with Eddie Joyce, Minister of Municipal Affairs, Minister of Service NL, Minister Responsible for Fire and Emergency Services, Government Purchasing Agency, Workplace NL and Registrar General include:
     - Council would like to make Minister Joyce aware of the funding promises made to the Town of Fogo Island at the time of amalgamation and what the amount of funding that has been provided since. CAO will compile a list for Council
     - Council feels that Minister Joyce should also be made aware of the progress the Town of Fogo Island has made, and continues to strive to make, in regards to centralizing services.
Town of Fogo Island  
Minutes of Council Meeting  
January 21st, 2016

- The Town’s MCW project applications (new Town Office, new Town Hall, new Fire Hall—all centrally located; water services for Barr’d Islands; engineering study on sewer outfalls; and potable water for the centre of the Island) were discussed.
- Council would like to see if there is any type of funding available for the proposed changes to the water system in Seldom by the Town’s engineering firm.
  - Attendance at the meetings:
    - Mayor Shea and the CAO will attend the meetings. Councillors Rowe, Bixby and McGrath also expressed interest.

3. Transportation and Works
   - There was some discussion over the possibility of consolidating Town garages with the Department of Highways depot. This was brought to the Town during amalgamation as a possibility, and Council would like to pursue this idea further.
   - While in St. John's to attend the other ministerial meetings, Council will try to meet with representatives from the Transportation and Works department.

4. Seldom Community Hall
   - Councillor McGrath brought up the issue of the recent closure to the Seldom Hall. It was closed due to issues with the septic and a 'soft' spot in the floor. Staff attempted to thaw out the sewer lines, but it was determined that it was frozen in the tank. Several attempts were made to thaw it out, but to no avail. The soft area in the floor is due to the shores underneath being rotten, as well as the sill. Based on this, management chose to close the hall and re-visit these issues in the spring.
   - Councilors felt that without a central hall, a greater effort could be made to re-open the hall, due to the Fireman’s ball that was scheduled for January 23rd and the Seldom Winter Carnival which takes place in February.
   - Management agreed to get public works to have another look at the hall.

5. Collins' Road
   - The CAO advised Council that Town staff attempted to plow Collins’ Road after the most recent snowfall, and there was considerable damage to town equipment. As well, after the last Council meeting, management met with Public Works staff and was given a list of damages that resulted from plowing this road, due to the poor condition it is in, and given this, management does not feel that the Town can continue to plow the road.
   - The CAO also advised Council that the road does not fit into the current road policy therefore the Town should not plow the road.
   - There was some discussion over the fact that Council had agreed to upgrade the road this past summer, and had that upgrading been complete, it may have fit in the current Town road policy.
   - Management agreed to meet with consultant and get his recommendation.

6. Road Policy - Additions
   2016-018
   Dwyer/Bixby
   - Resolved that the Town of Fogo Island make the following changes to their Road Policy:
Any resident wishing to have their road become a Town road must apply to the Town in writing. Town staff will visit the road and assess the road to determine if it meets current Town standards. If it does not meet the policy requirements, residents can apply to the Town for contributions towards upgrading.

Town contribution to upgrades
Each year Council will budget a set amount for its road upgrade policy based on its financial position at that time. Council will contribute up to a maximum of $5,000 per road for upgrading as per the Town of Fogo Island’s Town Road Policy standards, for a total not exceeding the budgeted amount for road construction for that year.

Resolution Carried. In favour 9. Against 0.

   - Mayor Shea provided an overview of the water issues in Seldom over the past few years. The Shrimp Plant is using too much water; hence creating low pressure and no water for some residents.
   - There is a great possibility of a breakdown, if the plant doesn’t reduce their water consumption.
   - The Town has been trying to come up with a solution to the problem; the amount of water can’t be increased, as the reservoir can’t handle it and the pipes can’t support a larger flow.
   - Progressive Engineering and Consulting Inc. (PEC) performed a review of the Seldom Fish Plant and water system. The summited proposal for the upgrades totals $297,275.
   - Mr. Barnes stated that his team has met several times since receiving the report from PEC and feel that there is a different route.

**Proposal:**

**Seldom Plant:**
1. Install a 75 HP Salt Water pump.
2. Change the cooling water system at the discharge from the cooker to recycle fresh water. Estimated savings is 150 gals per min.
3. Change water from fresh to salt on the after peelers. Estimated savings is ~ 25 gals per min.
4. Water used for general Cleanup around the plant can be converted from fresh to salt water. Estimated savings is 25 gals per min.
5. Change the feed tank supplying shrimp to the peelers from fresh to salt water.
   Estimated savings is 25 gals per min.

6. Change the flumes carrying shrimp from the peelers to the washers from fresh water to salt water. Estimated savings is 25 gals per min
   o Total estimated savings at Seldom Plant - 250 gals per men.

**Fogo Plant:**

1. Install a 75 HP Salt Water pump

2. Change high pressure crab washer from fresh to salt water. Estimated savings is 100 gals per min.

3. Water used for general Cleanup around the plant can be converted from fresh to salt water. Estimated savings is 25 gals per min.

4. Most processing lines in the crab plant can be converted from fresh to salt water.
   Estimated savings is 75 gals per min.
   o Total estimated savings at Fogo Operation - 200 gals per min.

   ▪ Co-op’s proposal is for the Town to consider helping the Co-op with the costs for purchase and installation on a 50 \% 50 basis.
     o Seldom Plant - The cost to purchase 75 HP pumps, including fittings, switches, pipe, foot valves etc. and installation is $65,000.
     o Fogo Plant - The cost to purchase a 75 HP pump, including fittings, switches, pipe, foot valves etc. and installation is $65,000.

- Mr. Barnes indicated that installation can be completed before startup of the season.
- Co-op is requesting Council to review its water tax.
- Requesting a restocking fee of $1000 for the PRV that they ordered that needs to be returned.
- Mr. Barnes spoke about the three fines that they received for the Department of Environment and their plan to implement a strategy to clean up the harbour.
- Mayor Shea thanked the representatives from the Fogo Island Co-op for meeting with us and they departed at 2:30pm.
- Councillors discussed the proposal and agreed that the Town needs to make a commitment.

3. **Economic Development Committee**
   - Councillor Dwyer gave a review of the Roles and Responsibilities, Guidance and Direction document for the Economic Development Officer.

Andrew Shea
Mayor
A Special Meeting of Council was held with MHA Derrick Bragg on the above date with the following in attendance:

**Councilors Present:**
- Mayor Andrew Shea
- Deputy Mayor Wayne Collins
- Councillor Edward Combden
- Councillor Leonard McGrath
- Councillor Maureen Lynch
- Councillor Lloyd Bixby
- Councillor Bernadette Dwyer
- Councillor Edmund Walbourne

**Staff:**
- Susan Cull, Chief Administrative Officer
- Amanda McGrath, Acting Town Clerk

**Absent:**
- Councillor Samuel Rowe, Prior Commitment

**MHA:**
- MHA Derrick Bragg
- Dana Blackmore, Constituency Assistant

1. **Call to order:**
   - Mayor Shea welcomed everyone and called the meeting to order at 1:05 PM.

2. **Ferry**
   - MHA Bragg spoke about the current situation with the Veteran; to date the ferry has only run for 7-8 days straight before a break down or weather interrupted the service. The current problem with the Veteran will not be repaired quickly.
   - The Windsor is currently in place for 30 days, after which she will need new certificate.
   - MHA Bragg asked Council how they feel about the response to the breakdown, with regard to alternate services, i.e. air and another ferry.
   - Communications were good. Notifications were sent out appropriately and in a timely manner, air service commenced the next day (Wednesday) and the Windsor was dispatched from Lewisporte Wednesday night.
   - It was asked if government is moving too fast by selling the Windsor, due to the shortage of vessels in the fleet and the ongoing problems with the Veteran. MHA Bragg said that the Deputy Minister said that she is committed to not letting the Windsor go, however this is not in writing.
   - Councillors were all in agreement that Fogo Island needs nothing less than the Beaumont if the Windsor is not available.
   - It was noted again that the 30 minute rule is not being followed for Change Islands. This item was again brought to the attention of Marine Services and now to the attention of the Minister.
   - A plan is needed for what will happen during a breakdown. The tape needs to be updated throughout the night when needed.
Mayor Shea said that the previous government had committed to two ferries during the tourist season; however we have not received a commitment from the new government. This needs to be followed up on.

3. Transportation Committee / Communication
   - MHA Bragg asked what the Transportation Committees relationship is to the Town.
   - The Transportation Committee is made up of three Councillors and four members of the public/business community.
   - Communication from Lewisporte is directed through Maureen Lynch, Committee Chair/Councillor, Mayor Shea, Susan Cull, CAO and Amanda McGrath, Town Clerk. Councillor Lynch informs the remaining Committee members, while the CAO informs the remaining Councillors and updates the Town’s Facebook page.
   - MHA Bragg said that the Town needs to go to Lewisporte at least 2 times per year and that we need to approach the government with a few issues at a time.
   - The three big issues addressed at the meeting in Lewisporte were: 1.) 30 minute rule. 2.) Deck space relating to population. 3.) Condition of washroom in Farewell.
   - MHA Bragg said that swing vessels are a big problem facing the government; there are no extra vessels available.

4. Newfoundland and Labrador Hydro
   - Hydro does not have anyone on standby during weekends. This past weekend there was only one worker on the island and he is not permitted to climb poles without another worker present who is certified to climb a pole, due to safety reasons. Councillors said this should not be the case and there should be someone on call at all times.

5. Open Line
   - MHA Bragg asked what is Councils view on his role as MHA with regard to open line? He said that he is not a fan of open line because the information is often misunderstood and/or turned around. Councillors agreed that open line often does not get the important information across.

6. Municipal Capital Works
   - Government has not made a decision yet as to how much each district will receive.
   - MHA Bragg asked what Councils priority is: priority was noted on the MCW applications.
   - Request for funding for the saltwater pumps – It was suggested to see if the Town can get funding through the Department of Fisheries or BTCRD because it may be quite a while before MCW funding is announced.
   - PDWU sites – The Minister of MA said that the Town picked the sites for the wells. This was not the case; Jim Harty Jr. completed the final site selection. All the sites that the Town had picked were not considered.

7. Hospital
   - This issue of doctor shortage and housing were discussed.
Dr. Tarik has recruited a doctor; however the contract has not been finalized.

The current plan is for Central health to have two doctors and one nurse practitioner at the Fogo Island Health Centre, instead of three doctors.

The RFP has not been issued for the doctor residences.

Mayor Shea spoke about the difficulty in reaching management at Central Health. Heather Brown, Vice President, Long Term Care, Community Supports and Rural Health, is the only individual that will call him back. Rosemarie Goodyear is the President & Chief Executive Officer of Central Health; Mayor Shea will contact her.

1. Call to order:
   - Mayor Shea called the special meeting to order at 2:50 PM.
   - Meeting was called to discuss the plowing of Collins’ Road.

2. Road Issues
   - At a meeting held on January 12, 2016, Council decided that Collins’ Road would be plowed. Staff had attempted to plow the road; however there was considerable damage done to town equipment. In addition, safety of the employees is a great concern.
   - At a special meeting of Council held on January 21, 2016, Councillors were notified of this. Councillors then decided to have the Town’s Consultant to assess the road. The Consultant provided a list of problems with the road, damage that occurred to the equipment and determined that the road is unsafe. In addition, the road does not meet the Town’s road policy. Councillors were notified of the Consultants assessment and recommendation.
   - Councillor Bixby questioned the CAO’s role in deciding not to plow the road any longer and accused her of having no right to decide that the road will not be plowed. The CAO referenced section 3.5 of the Municipal Handbook which states that Council cannot direct staff to perform an act that is unsafe and that they have a right to refuse work that is unsafe.
   - Susan Cull, CAO said that staff along with the Town’s Consultant said that the road was unsafe, therefore based on this the road could not be done.
   - It was noted that during the January 12 meeting Council suggested that staff were to plow the road with a backhoe; however staff had used the truck. Staff did not use the backhoe because it was unsafe to do so. The road is not wide enough and a few years ago the backhoe had almost tipped over.
   - Councillors spoke about discussions they had at a special council meeting, where Mayor Shea said he would visit Foley’s Lane and the possibility of a turnaround in Fergus Foley’s driveway. Some thought that a decision was made outside the policy for Collins’ Road and Foley’s Lane; other Councillors thought only for Collins’ Road.
   - Councillor Bixby asked to have a decision made now.
   - Councillors discussed getting a contractor to plow Collins’ Road and Foley’s Lane.
The Town Clerk cautioned Councillors decision on plowing non Town owned roads as other residents will then want their driveways plowed. Councillor Bixby accused the Town Clerk of looking for ways to not plow the road. Staff said that they are trying to ensure Council makes informed decisions based on the Municipalities Act.

Councillors agreed to get a legal opinion to see if the Town is liable for a contractor.

2016-022
Collins/Combden
Resolved that the Town seek legal advice to see if the Town can send in a contractor, with full disclosure, to plow Collin’s Road and Foley’s Lane.
Resolution Carried. In favour 8. Against 0.

Their current budget for waste management is $100,000 per year, however if they have to ship their waste to Robin Hood Bay it will be approximately $240,000.
- Since recycling begun in St. John’s, garbage for the land fill site has reduced by 60%.
- Options they are looking at are a transfer station or daily transfers off island. They asked if we encounter any problems with smell, leakages or maggots on the ferry. Fogo Island has encountered those problems sometimes during the summer; however they don’t outweigh the benefit of having a transfer station.
- Susan Cull, CAO will forward the yearly cost and tonnage to the Town of Wabana.
- Members from Bell Island met with the Fogo Island transportation committee last night. They want to work together as Bell Island has similar challenges.    - Mr. Penton stated that he had completed work as per the site visit last year with a Town employee and wishes to have his permit extended. He indicated that it was communicated to him during that site visit to not go outside the infill area adjoining his property.
   - Mr. Penton has been in contact with Dr. Abdel-Razek, Manager of Water Resources Management Division to request a permit to infill a body of water under section 48 of the water Resources Act.
   - Mayor Shea thanked Mr. Penton for calling and reminded him that Council’s decision will be based on rules and regulations of the Municipality and Government, not on how much money he has spent on work that has been completed outside of the parameters of his permit.

3. Request to Extend Permit:
   3.1 Permit Number 2015-179 – Vincent Penton
   - A Stop Work Order was issued to Vincent Penton on July 27, 2016 for completing work outside the parameters of his permit. His request for a permit and subsequently his granted permit was for an “Extension to driveway, landscaping and fill by shed and house”. However Mr. Penton had backfilled a 40’ X 44’ section outside of his request and approved permit.
   - Additionally, there are conditions under the Water Resources Act, DFO and the Lands Act, in which individuals must obtain permits to complete this work. Mr. Penton does not have these permits, as they were not required for his permit application.
   - Further to this, under the sections 5.2 h) and 7.5 of Town of Fogo Island Municipal Plan and Section 62 of the Town of Fogo Island Development Regulations is not permitted or desirable.

government agencies, specifically the Department of Environment and Conservation, Water Resources Division, the Department of Municipal Affairs, Crown Lands Office and the Department of Fisheries and Oceans. Be it also resolved that Mr. Vincent Penton be ordered to remove the 40’ by 44’ section of fill that was placed outside of his approved permit or obtain the necessary permits from Water Resources, Crown Lands and the Department of Fisheries and oceans, within a two month period.
Resolution Carried. In favour 8. Against 0.

3.2 Permit Number 2016-196 – David Decker
- David Decker had requested a permit to jack up house level to the road, build a 12’ X 23’ extension and backfill for a driveway. Mr. Decker was granted a 10’ X 23’ extension to home; not the 12’ X 23’ because it would have been inside the Crown Land reserve.
- According to Mr. Decker, due to miscommunication with his contractor, the contractor had proceeded to start work with a 12’ X 23’ extension.
- Mr. Decker has requested that the permit be extended to 12’ X 23’ or be permitted to pour the cement now, in order to have the original house secured to the foundation and later move the footing back two feet.

2016-116
Bixby/Lynch
Resolved that the Town of Fogo Island is unable to extend Permit Number 2016-196 to include a 12’ X 23’ extension as it is within the Crown Lands 15 meter reserve under the Lands Act, without approval from government agencies, specifically Crown Lands.
